

knomadic

Faculty-led programs built around the curriculum.

Knomadic partners with universities to turn courses into immersive global learning experiences — combining academic rigor, local expertise, and seamless delivery.

★★★★☆ 4.8 Faculty rating | 4.7 Student rating

Deep travel, anchored in academic rigor.

The most meaningful travel goes beyond logistics and sightseeing. It creates deeper engagement with place, culture, and ideas. Knomadic designs and delivers programs around faculty goals, student needs, and academic outcomes.

knomadic (adj.)

noh-mad-ik

referring to or describing individuals who seek knowledge through exploration in diverse cultures and environments

- ✓ **Bespoke academic design** Every program is built around the syllabus and learning goals.
- ✓ **Vetted global network** Access 200+ trusted experts and partners globally.
- ✓ **One accountable partner** One responsive contact, backed by trusted local teams.
- ✓ **Learning that goes deeper** Meaningful cultural exchange and field-based learning.
- ✓ **Budget transparency** Itemized costs, live spending, and unused funds returned.

How it works: the Knomadic experience

1

Define the vision
Map learning goals, course requirements, and student outcomes.

2

Build the program
Shape destinations, local experts, and field experiences with faculty.

3

Deliver the experience
Coordinate logistics, payments, risk planning, and 24/7 support.

4

Improve each time
Capture feedback, debriefs, and financials for the next program.

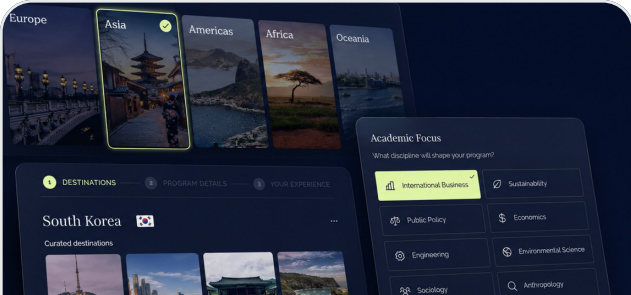

Working with Knomadic felt less like hiring a vendor and more like gaining a thought partner. Every site visit, every local expert, every logistical detail was designed to serve the learning—not the other way around.

Bruce Hull, Ph.D. | Professor, Virginia Tech
